- THE ADVERTISERS

- Companies that want to be known by end users, by contractors, by EPCs.
- Companies that want to promote themselves with OeMs.

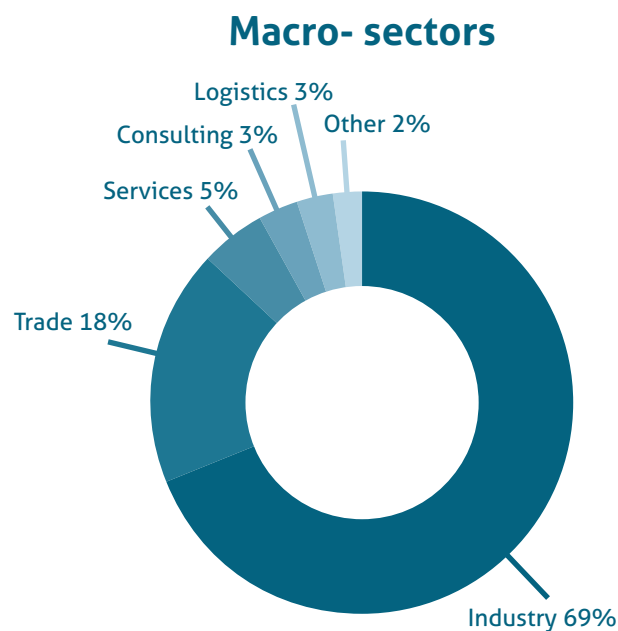

The wide and targeted distribution, is an excellent tool to promote manufacturers, OeMs, suppliers, installers, engineering companies.

Thanks to a specialized distribution and a reporting work, advertisers are guaranteed to have a commercial return in terms of expendable contacts.

THE READERS

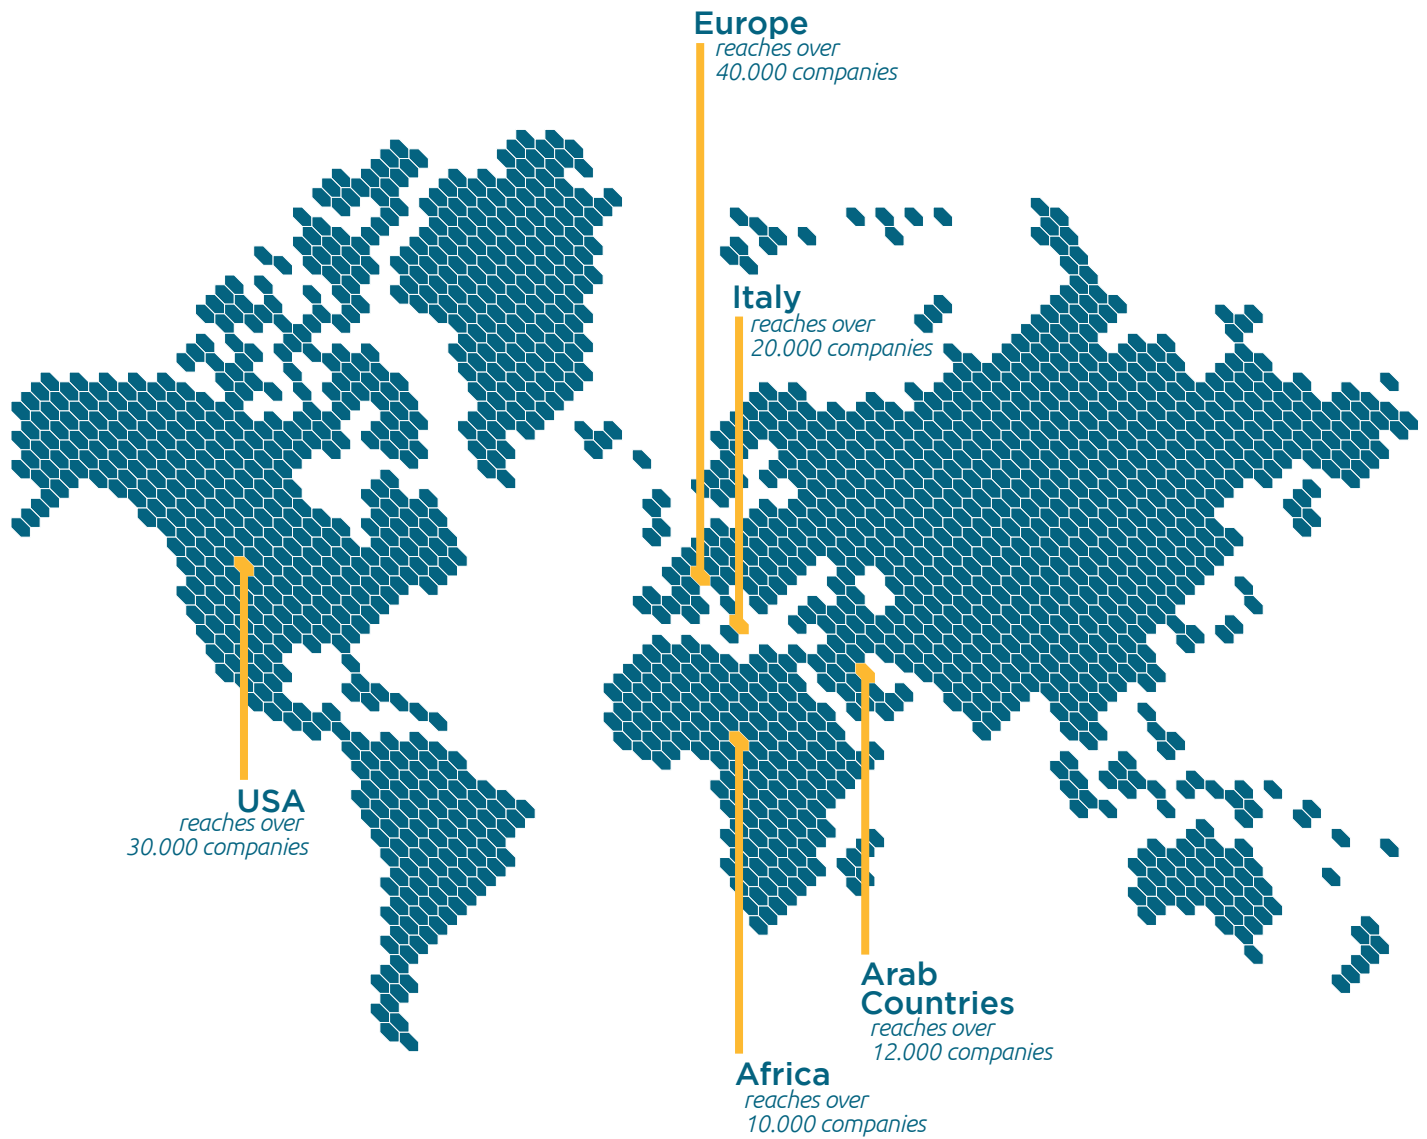

Industrial Technology reaches more than 100,000 companies across the world.

The readers mainly belong to industries of the following sectors:

THE DISTRIBUTION

The magazine, printed and digital, reaches distributors, engineering companies, consultants, contractors, OEMs & EPCs.

This year you will find us at:
